Education

Aug 2023 – May 2027	Amrita Vishwa Vidyapeetham (B.Tech CSE Final Year)	CGPA: 7.69
Mar 2021 – Mar 2023	Ignite Junior College (12th State)	GPA: 9.26
Mar 2020 – Mar 2021	Sri Chaitanya School (10th State)	GPA: 10.0

Projects

GitAura [🔗](#) [🔗](#) Jun 2026

- Built an AI-powered career platform integrating GitHub-aware resume tailoring, adaptive AI mock interviews, ATS analysis, and job matching.
- Developed a GitHub-aware resume tailoring engine that analyzes repositories and job descriptions to optimize ATS keywords and generate role-specific resumes without fabricating content.
- Designed a stateful AI interviewer with adaptive phases (Personal → Projects → Technical → HR), generating personalized questions from resumes and GitHub repositories with detailed feedback.
- *Tech: React, FastAPI, MongoDB, Gemini AI, LangChain, LaTeX, Python, JavaScript*

SchedAI [🔗](#) [🔗](#) Jan 2026 – Feb 2026

- Built a full-stack academic scheduling platform handling 27 courses, 24 faculty, 10 rooms, and 300 students with role-based dashboards.
- Integrated a Rust-based genetic algorithm with 23 constraints, reducing scheduling conflicts by 85% and generating timetables in under 3 seconds.
- Developed REST APIs with JWT authentication and real-time analytics (utilization, gap analysis) with sub-100ms response.
- *Tech: React, Node.js, Express, MongoDB, Rust, JWT, Tailwind CSS*

Full-Stack Job Portal [🔗](#) [🔗](#) Dec 2025 – Jan 2026

- Developed a full-stack job platform with job posting, application tracking, and recruiter dashboards.
- Implemented dual authentication using Clerk and JWT with secure role-based access control.
- Integrated Cloudinary, Sentry, and AI features for enhanced functionality and monitoring.
- *Tech: MongoDB, Express, React, Node.js, Clerk, Cloudinary, Sentry*

Movie Vault (Cross-Platform OTT UI Prototype) [🔗](#) [🔗](#) Sept 2025 – Oct 2025

- Built a Flutter-based OTT-style application for movie browsing, search, and watchlist management.
- Integrated YouTube iFrame API for trailer playback and Firebase for authentication and real-time data. Designed responsive UI with features like continue watching and subscription interface.
- *Tech: Flutter, Dart, Firebase, YouTube iFrame API*

Skills

Languages: C++, C, Java, Python, JavaScript, SQL, Dart, SQLite

Application Development: React, Flutter, FastAPI, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS

AI & Agentic Technologies: LangChain, CrewAI, Gemini AI, Gradio, OpenAI

Tools & Libraries: Git, GitHub, VS Code, Figma, Google Colab, LaTeX, Pandas, NumPy, Matplotlib, Seaborn, n8n

Certificates

Machine Learning with Python [🔗](#) Jan 2025

Torch it Up – AI Journey with PyTorch [🔗](#) Mar 2025
